# CANDOR

**Candor Software Solutions**  
Beyond IT

# Supplier Portal

The document exchange is through workflow

# Document Upload

The document can be searched ,either by attachment name or part number for sending it to supplier

Attachment Name	<input type="text"/>
Part Number	<input type="text"/>
<input type="button" value="searchAttachments"/>	

---

Attachment Name	<input type="text" value="UserGuide.pdf"/>
Part Number	<input type="text" value="MOD00001"/>
<input type="button" value="searchAttachments"/>	

**Document to Upload**

Attachment Name	<input type="text" value="UserGuide.pdf"/>
Part Number	<input type="text" value="MOD00001"/>
<input type="button" value="searchAttachments"/>	
<b><u>UserGuide.pdf</u></b>	

# Mail to Supplier

The Agile user will send mail, by clicking the link from “**Actions Menu**” to the suppliers for whom the attachment needs to be sent

Mail To:	<input type="text"/>
Subject	<input type="text"/>
Comments:	<input type="text"/>
<input type="button" value="SendMail"/>	<input type="button" value="Clear"/>

Mail To:	<input type="text" value="sri@wellprince.com"/>
Subject	<input type="text" value="documents are attached to the part Number MoD00001"/>
Comments:	<input type="text" value="Please refer and get back if you have any quires"/>
<input type="button" value="SendMail"/>	<input type="button" value="Clear"/>

# Supplier Search Screen

After receiving email, the supplier will search the attachment in the intermediate data base, with the help of part number. Mails are sent whenever documents are uploaded.

<input type="text"/>	<input type="button" value="searchAttachments"/>
<input type="text" value="MOD00001"/>	<input type="button" value="searchAttachments"/>
<input type="text" value="MOD00001"/>	<input type="button" value="searchAttachments"/>
<b><u>UserGuide.pdf</u></b>	

# Document Upload Screen

After modification, suppliers will upload the document .

<input type="text"/>	<input type="button" value="Browse..."/>	<input type="text"/>	<input type="button" value="Browse..."/>
<input type="text"/>	<input type="button" value="Browse..."/>	<input type="text"/>	<input type="button" value="Browse..."/>
<input type="text"/>	<input type="button" value="Browse..."/>	<input type="text"/>	<input type="button" value="Browse..."/>
<input type="text"/>	<input type="button" value="Browse..."/>	<input type="text"/>	<input type="button" value="Browse..."/>
<input type="button" value="Add Attachments"/>		<input type="button" value="Clear"/>	

C:\Documents and Sett	<input type="button" value="Browse..."/>	<input type="text"/>	<input type="button" value="Browse..."/>
<input type="text"/>	<input type="button" value="Browse..."/>	<input type="text"/>	<input type="button" value="Browse..."/>
<input type="text"/>	<input type="button" value="Browse..."/>	C:\Documents and Sett	<input type="button" value="Browse..."/>
<input type="text"/>	<input type="button" value="Browse..."/>	<input type="text"/>	<input type="button" value="Browse..."/>
<input type="button" value="Add Attachments"/>		<input type="button" value="Clear"/>	

# Supplier Mail

After document modification supplier sending a mail to Agile user

Part Number:	<input type="text" value="MOD00001"/>
Mail To:	<input type="text" value="sri@vmc.com"/>
Comments:	<input type="text" value="Please refer to the attachments and get back"/>
<input type="button" value="SendMail"/> <input type="button" value="Clear"/>	

# Supplier Portal Key Benefits

Supplier Portal facility, accessible from outside the Intranet for exchange of documents

- Portal facility is available for depositing documents by an Organization and for external vendors to pick up
- Similarly the portal will support vendors to deposit document with a notification to the concerned engineers for action
- Portal is integrated with Agile PLM to transfer the received documents in Agile PLM with action from concerned engineer
- Appropriate authentication and secure data transfer mechanism is made available for access to portal
- GUI simplification (Popup to select the username, part number for searches)
- Delete and edit of server settings are available
- Supplier maintenance like Create, Delete and Supplier login are available
- No Delay in approvals and document exchange, pick up the right document so reduce development time and also reduce time to market. There by increases ROI

# RoHS & REACH

# Requirement

To manufacture an assembly, all the manufacturing parts in the assembly, must have RoHS and REACH compliance

The user has to get RoHS & REACH information of all the manufacturing parts in every assembly and submit the reports to customer. Candor has developed a custom solution

- created and configured 26 Attributes
- Developed 11 Logics
- Developed 4 custom reports

Note: This is built for a specific customer, cannot publish with the screen shots, will have a detailed discussion in the presentation session

MPN- Manufacturing Part Number

RoHS- Restriction of Hazardous Substance

REACH-Registration, Evaluation, Authorization and Restriction of Chemicals

It is highly difficult job for the users to check all the MPN's and prepare a report. Candor compliance customization will perform the following action:

Will check for

- If All MPNs are with **FMD**
- If None of MPNs are with **FMD**
- If Only some of MPN's are with **FMD**
- **Exemptions**
- **Exemption's expiration date**

Generate the following reports

- ✓ **EU RoHS compliance result**
- ✓ **Exemptions Report**
- ✓ **REACH Total Summary**
- ✓ **REACH Failed Part report**

FMD-Full Material Declaration
