Keynote: Six Months of Ask Tom

In September 2015, Tom Kyte announced he was taking an extended sabbatical. This included stepping down from Ask Tom, a site he answered thousands of questions on for over 15 years. To keep this valuable service going, Oracle Developer Advocates Connor McDonald and Chris Saxon joined the answer team.

In this talk, Chris Saxon explains what it's like answering questions on Ask Tom. He shows examples of the weird and wonderful questions people ask. This includes many not published to the public. He also looks at what makes a good question and how to increase your chances of getting the answers you need!
